

CELEBRATE BREAST CANCER AWARENESS MONTH

SPONSOR A KBFPC PINK FLAG

Breast cancer impacts all of us – our families, our friends, our coworkers, and ourselves. **1 in 8 women** are diagnosed with breast cancer in their lifetime. In Alaska, an estimated **520 women** will be diagnosed with breast cancer in 2023* alone.

EARLY DETECTION SAVES LIVES

Early detection includes annual wellness visits, breast exams, screening mammograms, genetic testing, diagnostic services, and reliable, up-to-date information.

At KBFPC, clients can access this lifesaving care at no- or low-cost (thanks to our sliding fee scale *and* your community support).
